JARED SMITH WRITES OF HIS WORK IN THESE ISLANDS

Honolulu, T. H., July 11, 1901.

Editor Advertiser—I do not wish to prolong a newspaper controversy, but in that spirit of fairness which characterizes the Advertiser, I beg you will allow me to say a few words in regard to the clearing of the planted forest from the upper portion of Kewalo-uka.

This narrow belt of land has been turned over by the Territory of Hawaii to the United States for the establishment of an experiment station for work in agriculture. I selected the upper portion of the tract as most suitable for horticultural work, partly as a matter of convenient location, and also because, being adjacent to the public road, whatever experiments were to be made might be carried on under the critical observation of the public. Furthermore, this is the only portion of the station land where there is abundant rainfall. The land was cleared for the purpose of getting firewood to sell. If the cordwood is sold the station does not benefit thereby, for the money will have to be turned into the United States Treasury, as are all other funds realized from sales of government property.

Trees do not make rain; the rain makes the trees. When this land is covered with fruit trees, cultivated crops, or even with grass, the climatic effect will be as great as if there were a eucalyptus forest. The results may be of importance to those who own land on the mountain slopes at like elevation. The fact that this tract is now the property of the United States, and is to be used for experiments intended to be of benefit to all

who are interested in agriculture and horticulture, seems to have escaped the minds of my critics. I am left very much to my own discretion as to what lines of investigation shall be undertaken. There is much to be done, and in getting land ready for cultivation there is much expense in time and labor without immediate returns. Some one must take the responsibility of this unproductive preparatory drudgery. I have been sent here by the Secretary of Agriculture to start operations. I was not an applicant for this position, but having been sent here to do certain work, I shall endeavor to accomplish it and fulfill the confidence which Secretary of Agriculture James Wilson has placed in me. I am responsible both to the Department of Agriculture and to the people of Hawaii. If the work of this station is successful it will mean the rendering of aid and assistance to many lines of agriculture practiced in these Islands. There is no politics in an experiment station—it is neither for nor against the present order of things. The work is for the welfare of the country and the people; to introduce and establish new industries, to fight plant and animal diseases and insect pests, study the breeding and feeding of live stock, improve the soils; to make Hawaii the home of a million American citizens; not only a land of diversified industries, but a great and prosperous State. Results are not to be attained in a day. The appropriation is too small to admit of rapid progress. It will be perhaps two or three years before enough of the crude, preliminary work has been done to form a basis on which to build for effective results. In the meantime I ask the public to suspend judgment and lend to the station their co-operation and good will, as well as their criticism. Very respectfully,
JARED G. SMITH.

POLO MATCH THIS WEEK

Oahu and Makawao Clubs to Play on Maui Next Friday. Latest Arrangements.

Next Friday afternoon the polo game between the Maui and Oahu clubs will be played on a ground near Maunaloa Seminary. It will be the first championship game to be played on Maui under the auspices of the Hawaiian Polo Association.

The teams will probably line up as follows:

Oahu Club—F. F. Baldwin, George Bailey, David Fleming, Harry Copp, Sam Kalama. Club colors, black and orange.

Oahu Club—Charles Judd, Ed. Damon, "Kauka" Judd, Henry Damon. Club colors, blue and white.

Of the arrangements for the game the Maui News says:

The ponies for the Oahu Club came over on Wednesday's Claudine and are being housed and exercised at the Maui Club. A cosy club house has recently been erected at the grounds, thanks to the kindly generosity of Hon. H. P. Baldwin, and on next Friday afternoon the ladies will serve refreshments during the game, at the club house.

Visitors from Wailuku, Kahului and Spreckelsville can visit the game by going up on the 1:30 train to Paia, where carriages can be procured. The game will not be concluded in time to catch the 4:30 return train, but a special train will be provided to bring the visitors from Paia later in the afternoon. A cordial invitation to the general public is extended by the local club.

The Advertiser's special correspondent writes of the coming game as follows:

19th is the chief subject of talk in Maunaloa is the chief subject of talk in Maunaloa district. By Wednesday's steamer two of the Honolulu players, "Kauka" Judd and Henry Damon, arrived bringing with them eleven fine ponies to be used by their team.

The Makawao team as now selected will probably be F. F. Baldwin, captain; Harry Copp, David Fleming, and George Bailey, with Sam E. Kalama as substitute.

The new club house recently built on the Makawao grounds and presented to the local polo players by Hon. H. P. Baldwin is now completed. Its dimensions, including the veranda, are about twenty feet by thirty feet and at present it has but eight lockers. Inasmuch as the building is open on the side facing the grounds, it will be provided with benches and used as a grand stand on the day of the approaching contest.

It is reported that a large party of Honolulu people will come to Maui next week to attend the game. Among those mentioned are S. E. Damon and Charles Judd, who will play; Walter and Isaac Dillingham who, after the match, will go to Ulupalakua for a great cattle drive; Mrs. J. C. Walker, Misses Juliet King, Katie Cornwell and others.

Henry Damon is the guest of his cousin, F. F. Baldwin of Paia; "Kauka" and Lawrence Judd are at Grove Ranch.

LENNON IN HILO.

Posed as a Lawyer But Practiced at the Saloon Bars.

M. C. Lennon, who was in Hilo for a few weeks in the office of C. M. LeBlond, is in serious difficulty. While in Hilo Lennon posed as "the best ever" in point of law, but as he had no license to practice in the Circuit Court the public had to let it go at what he said. He touched a couple of friends here for small sums, but paid the money back before leaving.

He met Miss Coats after she came here from Honolulu to do typewriting, and after an acquaintance of a few days they went to Honolulu and were married. Lennon was a great drinker, and during his short stay in Hilo carried a fair-sized jag with him all the time. He was not a partner of Mr. LeBlond at any time, merely occupying one of his offices. He seemed bright enough, but bore evidence of a continued spree.—Hilo Herald.

LT. PATTERSON IS SENTENCED

Artillery Officer Confined to Post Limits With Money Forfeiture.

Second Lieutenant C. S. Patterson Jr., Sixth Artillery, was recently convicted by court-martial in the department of northern Luzon of conduct prejudicial to good order and military discipline, and sentenced to confinement to the limits of the post where his company may be serving for five months and to forfeit \$50 of his pay each month during that period. It was alleged that he failed to take up and properly account for, on his battery fund account, the sum of \$250 turned over to him as a dividend for his battery from the profits of the post exchange at the Cuartel de Espana, Manila. His sentence was approved by Major General Wheaton, commanding the department.

THE SCHOOL EXHIBIT.

Hidden Away But Good When it Was Found.

A letter which was received yesterday by a Honolulu from a friend who had visited the Hawaiian exhibit at Buffalo contained the following:

"I had a great time finding the Honolulu school exhibit. I searched my guide book but there is no mention of it there. School exhibits were in both the Ethnological and Manufactures buildings, but I could find no one who knew of such an exhibit. Finally a gentleman in the Ethnological building told me to go to the Public Service building, where they would certainly be able to tell me where to find it. I was advised to go to the Manufactures building or Government building. After a hunt I found it tucked away back of the kinometograph exhibit from the Washington schools. A curtain hung before the door which we lifted showing a perfectly dark room where the pictures were running. Passing through this room and lifting another curtain we stepped into the Hawaiian exhibit room. It is so small there is no room for more than half a dozen persons. We examined the display of water colors and native flowers with descriptions by the children and they were very pretty."

ART LEAGUE CLASSES.

An Opportunity for the Teachers at the Summer School.

The summer classes of the Kiloheha Art League are beginning under very favorable circumstances. The league rooms have been fitted with all things necessary for a summer's work, and everyone connected is very much interested. It is hoped that this may be the first step toward the formation of a permanent art school in connection with the league, an object the members have had in view for some time. The work taken up this summer will give as comprehensive an idea of artistic matters generally as is possible in the limited time. Persons interested in art and desirous of spending a few hours a week in study will find this course very useful.

The classes will be held every Monday, Wednesday and Friday afternoon at half past three.

The ladies of the league very kindly provide afternoon tea for the teachers who study at the summer session of the Normal School, and it is hoped they will find the league a pleasant place to meet.

Mr. Gordon Osborne conducts these art classes.

COMMITTS SUICIDE.

A Japanese Cook Strangles Himself to Death.

A Japanese by the name of Sentara Nisida committed suicide in the Hawaiian Commercial and Sugar Company's mill early Sunday morning by tying a handkerchief around his neck and strangling himself to death.

He was a cook on board the British ship Antelope, now in the Kahului harbor, but had run away. Early Sunday morning he came in the postoffice and stated that the towing of the ship made him sick, and that he did not want to return. He said he was afraid he would be arrested and taken aboard again.—Maui News.
